

Instruction Universal Interior

FOR VOLVO CARS MANUFACTURING – UNIVERSAL INTERIOR FOR V82-V85

October 2023

The following instructions are valid for the Universal Interior Divider for Volvo Cars Manufacturing V82-V85 used for overseas shipping.

With the Universal Interior the container can be splitted into 2-24 sections. The height of the Universal Interior is 191mm which is equal to one wooden frame. The Universal Interior Divider can be stacked on top of one another using a pallet spacer (art. no 2041593) between the dividers.

The following instructions are examples of combinations.
